

## **SIP TRUNKING**

### **SIP Trunking for Business - Simplified**

**ValTech Communications** was founded in 2003 in response to market demand for more affordable, yet still reliable service supported by high quality customer service. We have since expanded our services to include the next wave of technology; Hosted IP PBX, Data Services, and High-Speed Internet. We interface with over 30 carriers, provide telephone numbers in over 10,000 rate centers throughout the United States, Canada and in over 60 countries around the world.

Our experience in the telecommunications industry allows us to manage high performance voice and internet services at lower price points than our competition. We represent a new alternative in a growing industry— “Big City Technology Supported by Friendly, Small Town Service.” Navigating through the world of telecommunications can be overwhelming –we’re here to help by adapting our services to meet each organization’s needs so that you no longer have to compromise.

- The service works with virtually every telephone system
- The customer has access to enhanced capabilities without the expense of a new phone system
- One consolidated monthly bill

---

## **IDEAL ENVIRONMENTS**

### **Single or Multi-Location/Green Companies**

Connect all of your locations across a large geography and eliminate long distance charges between offices. Create a centralized call flow between offices, home, and flex based workers in order to leverage staff, resources, and save money.

### **Constricting Budgets**

Our customers have seen an average of 30% savings on their existing telecom expenses.

### **Fast Growing Companies**

Grow your business across the country and around the world without the need for expensive brick and mortar. Instant number creation and line expansion with our automated systems. No more paying the phone company for antiquated service that is tied to a specific location.

### **Seasonal Demands**

Provides you the ability to expand and contract your business to meet your peak times of year.

### **Relocation**

Never lose your numbers again. Keep your numbers just like your cell number. Take them with you when you relocate. No more expensive market expansion lines.
